

Main Dish/Soup

Beef Vegetable Soup

from a mix but delish!

Lisa Brown

I always try to keep a package of this Bear Creek Soup Mix on hand.

Feeds 4-8
Depends on hunger factor :).

Ingredients:

- 1 pkg. of Bear Creek Vegetable Beef Soup Mix
- 1 small can of tomato sauce
- 1 can Rotel Tomatoes with Green Chilies
- 1 lb ground beef or ground turkey (optional)

If adding ground meat, cook first and set aside.

Prepare soup according to package directions adding water and tomato sauce. I added the Ro-tel Tomatoes to give it a little kick! Add meat, if desired.

*If I have leftover cooked veggies in the refrigerator, I add those, too!

This takes maybe 30 minutes to prepare. Serve with salad, cornbread, or crackers. Really hits the spot on a cold day but we like it any time of year.

Enjoy!
